13. Plan of action chalked out by the IQAC in the beginning of the academic year towards Quality Enhancement and outcome achieved by the end of the academic year

Plan of Action	Achivements/Outcomes
A few value added courses like Media Studies and Tourism Management be introduced.	An attempt by the ABNSCPTA was made to establish an institute of rural management. A team visited IRMA, Anand, to understand the working of a stateoftheart institute. However, the project had to be shelved in view of some operational difficulties.
An interdisciplinary collaboration.	The collaboration proved fruitful for the course in environmental study.
Introduction of Physiology as a general subject for Honours students.	The course has been introduced.
PG courses in a number of Departments to be contemplated, including the Department of Philosophy, by ensuring adequate teaching strength and liaison with the University.	As it turned out that the departments cannot be made equipped with adequate staff strength to open PG courses, the plan could not be executed.
Formal Performance and Academic Audit to be initiated.	This year the college switched to CBCS mode. In view of the extra effort involved for this conversion the audit work could not be initiated.
Formal Green Audit be initiated.	A Green Committee was set up. The Committee has completed making a list of plants in the College campus. On its initiative a proposal to set up a biodiversity park within the campus was also prepared and sent to the State government.

An audit of sophisticated instruments to be undertaken for ensuring their maintenance.	On the basis of a survey of sophisticated instruments it was found that a few of such instruments needed some repair. Vendors were contacted and primary inspection and some repair work was done.
All the computers to be protected by required software.	Adequate number of internet protection software were purchased and installed.
People's Biodiversity Register be developed.	A plan of actions has been drawn up.
The College initiates the process to seek approval from the Higher Authorities to start UG Honours and General courses in Education in the College.	A proposal was subsequently sent to the Department of Higher Education. Permission was obtained to start the course in 201819 academic ye

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The institution so far did not adopt any structured mentoring pattern but has always wanted to make the students feel comfortable in the particular academic set up by following the strategies mentioned underneath: An allinclusive orientation program for the students on the very first day of attending the College, by the Principal /Officer-in-Charge, as well as the senior teachers, Head of respective Departments to welcome them and familiarize them with the institution, is arranged. The Head Of the Departments seek to orient them to the particular Department, the core curriculum, examination system and offer information to clear any doubts which the students may have at the initiation of an academic session. The merit of the subject and its related career opportunities are also discoursed. During the course of every semester, the Departmental Faculty members identify slow learners and advanced learners in the class. Tutorial classes are arranged within the routine to mentor the slow learners and also facilitate their interactions with the advanced learners. This fosters positive fellow feelings and also enables the weaker students to approach their classmates and teachers alike. Besides if any student approach the teachers with personal problems which they feel shy to discuss in an open classroom/atmosphere, teachers take special care in dealing with such cases and offer suggestions maintaining confidentiality. Separate records are maintained in these regards. Informal discussions encouraging the students to take part in quizzes, extempore etc. are also occasionally organized within classrooms by Departmental teachers to increase the grasp on factual information and prepare the students for one mark questions in their final semester examinations. In this way they can also develop the power of better expression of their views. Parent teachers' meets form an integral part of students' mentoring as the teachers update the guardians about the progress of their wards and draw their attention to individual cases. Students are mentored in value education through inspirational lectures, motivational talks, social and gender awareness programs. They are encouraged to participate in these programs as audience as well as volunteers, in organizing those. Students are also mentored in extracurricular activities by proficient teachers in events like Youth Parliament Competitions, Science Fairs, debating, quizzing, theater and sports. The cultural activities observed on college campus also fortifies the student- teachers' tie, as the latter guide them in their concerts and skills.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Formal continuous Internal Evaluation (CIE) System being an essential part of the Choice Based Credit system (CBCS) has been introduced in this institution from the year 2017. On this ground we are at a pre-mature state to initiate and implement reforms in this regard. However to enhance the quality assessment and further improve the mechanism of internal examination and evaluation, the formation of a formal think tank consisting of senior teachers and Heads of the Departments of the Institution, is highly on the agenda.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

A well designed academic calendar is prepared by the IQAC in consultation with the Head of the institution, depicting the year round activities of the institution. Adhering to this master calendar, every department is given the freedom to frame their separate academic schedules. The calendar includes: Explicit break-up of the syllabus Number of classes allotted for each paper Time schedule for tutorial and special classes Probable dates of class tests, College tests and University examinations List of holidays and vacations With regard to teaching plans, each department prepares their individual lesson plans which are then communicated to the students. The Sanskrit, History, Bengali and Zoology departments conduct student projects as part of their PG curriculum sticking to the norms of the calendar. Evaluation Blue prints structured by the affiliating university is sent to the college and it has to be followed by the respective departments of the college. The detailed break up of marks, question pattern, probable date of examinations are likewise communicated to the students at the beginning of the academic session. Slight variation to this pattern is intimated to the students well in advance. The institution with the departments working as pivotal units concerned with the academics, tries to keep up to the academic calendar to the possible limits of its feasibility.

They are regularly invited to interact with the teachers and students. They come and share their expertise from various fields like government, Law, academia, corporate world, startups, etc. Notable Activities performed in the year : 1. Contributions via performances in the cultural programme and sports

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

First example The concrete form of this decentralised management has started in the year 1970 when the Govt. of West Bengal Education Department, Appointment Branch has issued a letter vide Memo no: 4188-Edn(A)/A-51-2/70, date: Calcutta, the 26th November, 1970. The implementation of this order/letter at this college in that year has set in, the proper decentralised management. Activities of every academic year are mostly performed by the subcommittees formed under the Teachers' Council. The number of these subcommittees varies time to time in relation to the activity /work load or paths innovated for the better management of the college. Number of such committees was 40 during last academic session. It is mentionable here that the orbit of these subcommittees also has a sister committee that of 'Non-Teaching Staff sub-committee'. This sub-committee has been formed according to the recommendation of the NAAC visit Cycle I held in the year 2007. This subcommittee has been functioning in the context of better office management. This is also an administrative subcommittee although this is solely formed by the non-teaching employees of the college. Participative management in the college: There are some other activities run by the college in every academic/ financial/ calendar year which are not within the purview of the Teacher's Council and College administration in the strict sense of the term. In these cases some other types of management has recently been grown up. In such cases management is activated through the formation of committees including the stakeholders -teachers, on-teaching employees, representatives of the students, Alumni Association, Part -Time teachers , Teaching cum Learning Assistants and so on. The examples of such management for the year 2017-2018 are as follows: Example 1: Participative management for the year 2017-2018 is the management of KRISHTI- Annual day, held on 3rd September every year. The Organising committee of this activity has been used to be formed in an All-Wing Meeting where the afore stated stakeholders are invited. From amongst them, the Organising Committee for

KRISHTI is formed every year. Example 2: Formation of the Women's Cell according to its norms of formation prescribed by the competent authority (UGC) in every academic /calendar year. Women's Cell is formed taking into consideration of the participation of some external members as Women Advocates etc

6.1.2 – Does the institution have a Management Information System (MIS)?

No

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	There exists one way to contribute in the curriculum development. This process is through the discussion and exchange of valuable suggestions and views in the meetings organised by the Under-graduate and Post-graduate Board of Studies. A notable number of teachers, at least one from each of the department are invited to hold the position as members of Board of Studies who attend meetings whenever invited and provide suggestions based on student's feedback regarding change or modification of the curricula.
Research and Development	Research activities are encouraged in the institute among the teachers and students through various means such as by writing and publishing analytical articles, columns, in various magazines and journals. Besides editing and authoring research oriented books, launching Minor and Major Research projects by/for teachers are also encouraged. Various types of development activities such as infrastructural, socio-cultural, intellectual etc. are executed through communication with respective government departments for fund management and utilisation,
Library, ICT and Physical Infrastructure / Instrumentation	The central library utilises the grant amount in buying books and journals as per the requisition. The books from central library following proper methods are also taken by departmental libraries to make the accession of books easy for the students. Library has undertaken the digitalised process of cataloging. The Institutional Library is well connected with the consortium of Indian libraries INFLIBNET. The database is managed partially by KOHA software. Besides every department houses a handful of

	books in departmental libraries. The Institute has a number of computers with smart class rooms. There is a dedicated seminar room with high dependability acoustics.
Human Resource Management	The College and its employees are under the direct administrative control of Dept. of Higher Education, Govt. of West Bengal. There is a dedicated portal termed IFMS (Integrated Financial Management System) for management of various academic and service related affairs of the employees.
Admission of Students	The students are admitted on the basis of Merit and it is carried out completely online to ensure transparency. An admission committee comprising of Faculty members supervise the entire admission process, in compliance with the regulations laid down by the higher authorities. A notification is usually published on the website ahead of date of submission of online forms. This usually commences within one week of publication of Class 12 results by all major educational boards across India.
Examination and Evaluation	University Examinations are conducted as per the regulations made by the affiliated University, so the college does not have much to adopt in this regard but to arrange the examination process in such a manner so that exams are conducted peacefully. But with regard to internal class tests, the departments are given full freedom to conduct tests and evaluate the student's performance. Since Choice based Credit system is adopted, so student's performance are assessed and evaluated all the year round.
Teaching and Learning	i) Formation of master routine. The departments try at its best to adhere to this class routine. ii) Each departmental head discusses the syllabus with fellow colleagues and makes an appropriate distribution of the syllabi plans laboratory practical classes, organises occasional class tests as part of continuous evaluation of students throughout the year. The weak points of students are identified and accordingly remedial measures are adopted. iii) Departmental Heads keeps regular vigilance on the portions of

syllabi covered. Results of various internal examinations are discussed department wise to evolve better strategies for teaching. iv) Seminars and special lectures are arranged.

6.2.2 – Implementation of e-governance in areas of operations:

E-governance area	Details
<p>Student Admission and Support</p>	<p>UG and PG admission related all activities are performed through Egovernance system, since its very beginning with the admission related advertisement on website. This is followed according to the strict directives of Ministry of Higher Education and at present the system have become remarkably efficient. Student support related all information are displayed through this system. The support namely the processing of scholarship forms, and its submission to the competent authority are done through this system. Again University related support activities such as registration, Form Fill up, Admit card collection, Review and Reassessment of the results along with others are also executed through the E-governance system.</p>
<p>Examination</p>	<p>University examination related activities such as Registration, Form Fill up, Admit card collection, Submission of Internal marks to the university, Review and Reassessment of the results along with others are seemed to materialise through the Egovernance system. Thus it is seen that E-governance system is applied /implemented in every field of the college activity as far as possible and feasible. This is due to the ongoing movement of the country on one hand and the college administration on the other but some areas are yet to be included under this system. This is not due to the unwillingness of the authority but due to lack of time and resources. It is expected that E-governance will cover all the activities of the college as soon as possible, leaving those areas which are not possible to be covered under it.</p>
<p>Planning and Development</p>	<p>Presently there remains a College Planning and Development Subcommittee in this college. This is an administrative sub-committee. This subcommittee every year edits the</p>

condition of physical infrastructure of the college inclusive of college building etc. and accordingly prepares thrust area(s) of planning for the development, in the ongoing financial year. After identification of the thrust area the college the cost estimate for the execution of that planned development from PW, DTE (Social Sector) of the dist. Cooch Behar. After availing that, this committee sends the budget to the Higher Education Deptt. for requisite fund, within April-October 08, every year. This process of communication with the Higher Education Department is primarily based upon the E-governance system, and after that the Hard line system is also followed for displaying various documents. Thus in this case E-governance is implemented to some extent.

Administration

College administration related activities of the college (inclusive of Library administration to some extent) may be divided broadly into two categories: Internal and External. a) Internal activities mainly encompass the display of the college related various information. b) The displaying of various activities related circulation of notices time to time. c) Other non-financial activities inclusive of admission etc. The activities mentioned in paragraphs (a, b, c) are done on the basis of e-governance system. College related every information is displayed through college website. All the notices are circulated through the E-governance App. system. Other activities such as Service Book Updation, Pay Fixation, Teacher's Performance Appraisal, Admission process (UG and PG) and etc. as directed by the Higher Education Department and Directorate, are performed on the basis of E-governance system. External activities are broadly divided into two categories: a) Receiving of the letters/Orders from the Higher Education Department. Feedback relating to the Orders and Letters along with reply of the time to time queries asked, of the said authority about the college or in a word additively both (a) and (b) means, the communication with the higher authority. All types of communication with the higher authority whatever be

its category are made through E-governance system and sometimes Hard Line system is also followed, if required. Thus the college administration has been going on following E-governance system.

Finance and Accounts

All types of said financial activities inclusive of non-governmental fund to some extent are done through E-governance system. In this context, elaborately the area of E-governance are Monthly Billing Process, Purchase of furniture, chemicals and glassware, equipment, books and journals out of govt. fund, financial transaction with the affiliating University, collection of student fees and some other related transaction are made through E-governance system. In the case of accounting both E-governance and hard system are followed.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Alike the sister academic institutions of the nation and the world as a whole, this Acharya Brojendra Nath Seal College has also its own mission and vision. Its vision is as follows: ``to create socially responsible people with academic excellence by blending traditional values of education with modernity''. A critical look of this vision clearly discloses that it has three parts or areas: • To create socially responsible people • To create academically excellent citizens • To create citizens who do possess the blend of traditional values of education with modernity All these dimensions /areas are more or less interrelated. The college authority remains careful about realising the vision and takes care of developing the students in an all-round way. For this, the college thinks that besides building the academic career of the students, to make them socially responsible is also part of its responsibility. Accordingly it is used to model its activities for materialising this distinctive area of its vision. The activities are demonstrated in the following lines: ? The students are made aware of the incidents taking place in the surroundings as well as in the state of their residence. Accordingly whenever there is any disaster occurring, the students gather information about the nature of occurrence and accordingly try to their every possible means, to extend hands of help. ? To arrange field trips/study tours for making the students aware about the society, polity, environment, surrounding their habitat. The students through these field trips gather information about these areas and the habitat. ? To organise various cultural activities namely Annual Day (KRISTI) etc. for developing the cultural traits of the students. Through these activities ,not only their inherent talents gets exposed, they also get an opportunity to come in close contact with the legendary local or regional artists, get to involve themselves more socially with them, thus making possible an inevitable cultural exchange. ? To organise sports and games events for the development of the physical traits of the students. Through these activities, the students get an opportunity to mix, interact with sports persons ,guides from other colleges, learn the tactics of games and thereby make themselves in a way socially responsible by being actively involved in sports sand allied activities. ? To organise other allied programmes such as Yoga training, special lecture sessions on Value Education, Vocational Training, Professional ethics etc. for the best possible level of social and cultural development of students. The above discussed activities have deep seated outcome for the students of this college. These outcomes are of two types:1) Temporal outcome 2) Inter-temporal outcome. ? The Temporal outcome is that the students of this college are seen to make mostly, the best performance in the Cultural activities. ? They get morally and ethically upgraded,so that understanding the pathos of people

around and extending a philanthropic hand becomes easier for the students. The Inter-temporal outcome is that the students of this college are seen to take part as leaders and activists in the society.
