

## Institutional Vision and Mission

Alike the sister academic institutions of the nation and the world as a whole, this Acharya Brojendra Nath Seal College has also its own mission and vision. Its vision is as follows:

“To create socially responsible people with academic excellence by blending traditional values of education with modernity”.

A critical look of this vision clearly discloses that it has three parts or areas:

- To create socially responsible people
- To create academically excellent citizens
- To create citizens who do possess the blend of traditional values of education with modernity

All these dimensions /areas are more or less interrelated. Yet presently the college authority views that to create academically excellent citizens is the prime need of the hour. For this, the college thinks that this dimension of its vision as the most distinctive part of the vision. Accordingly it is used to model all its activities for materialising this distinctive area of its vision. All the activities are demonstrated in the following lines:

- To prepare holiday list as per govt.rule.
- To prepare Academic Calendar
- To prepare class routine for both the dayandmorning shifts for optimum utilisation of teaching section of the college.
- To appoint teaching cum learning assistants for compensating the contribution of vacant posts.
- To open library facilities (lending, borrowing and reading) in every working day of the week from morning to evening.
- To collect up-to-date books and journals in the library for making the students aware about the ongoing changes of the textual presentation as per the syllabus.
- To facilitate the learning of students through reading, lending and consultation of books from seminar/departmental libraries.
- To arrange special classes/ special coaching during the Puja vacation or short course recesses.
- To make laboratories always at an upkeep level.
- To organise students’ seminar in the departments.
- To organise lectures by the notable resource persons of the adjoining area to make students reach at the extraordinary level of development.
- To extend facilities to the students to take part in the solo scholastic seminars, National/International seminars and likely others.
- To arrange field trips/study tours for making the students aware about the society, polity, environment, surrounding their habitat.
- To organise various cultural activities namely Annual Day (KRISTI) etc. for developing the cultural traits of the students.
- To organise sports and games events for the development of the physical traits of the students.

- To organise other allied programmes such as Yoga training, special lecture sessions on Value Education, Vocational Training, Professional ethics etc. for the best possible level of academic development of students.

The above discussed activities have deep seated outcome for the students of this college. These outcomes are of two types:1) Temporal outcome 2) Inter-temporal outcome.

- ✓ The Temporal outcome is that the students of this college are seen to make mostly, the best performance in the University examinations.
- ✓ To have chances to study in the celebrated Higher Educational institutes at Post-Graduate level.
- ✓ To make encouraging performances in the competitive examinations related to job markets and allied.

The Inter-temporal outcome is that the students of this college are seen to take part as leaders and activists in the social and allied aspects of life.

Thus it is seen that the Acharya Brojendra Nath Seal College throughout its long life span has been performing the role which is usually expected by the society and nation from a Higher Educational Institute.

#### **In area of its Priority:**

Alike notable institutes of the nation and the world, this college has the priority to make its admitted students equipped of the qualities as the ongoing time demands. In a word this institution has the prime motive to make its students 'modern' in the sense, the term bears onto.

#### **In its Thrust Area:**

The thrust area of this Higher Education institute is to make the academically weaker students more or less equally efficient /at par, with the bright and meritorious students not only of this college but also of the celebrated first type, higher education institutes of the state, nation and the world.

Finally in this context it may be opined that A.B.N.Seal college being an academia in this remote backward corner of West Bengal, India and of the world, it has been continuously taking the challenge to make a notable intellectual contribution in the wider field of life of the state, nation and the world.
