

DEPARTMENT OF GEOGRAPHY

Field Works/Excursion:

1. 31st March-3rd April, 2022 at Cooch Behar Municipality

The field survey was conducted in March, 2022 as a fulfillment of a portion of the Final Semester Geography Honours Syllabus under UG CBCS Curriculum of Cooch Behar Panchanan Barma University. The aim of the study was to explore and analyze the detailed socioeconomic conditions of different wards of Cooch Behar Municipality based on the collected data. Total 900 samples were collected by 19 students of 6th semester on different socio-economic parameters. Result of the study revealed some interesting facts. In general, ward no 12, 13, 14, and 17 were found to be in better position regarding different socio-economic parameters whereas the 2, 3, 6, 8 and 18 wards were far behind than those wards. This report can be used for the planning and policies for the development of the municipal area. It has also the potential to be an important document for future researchers and history of Cooch Behar municipality.

2. 9th-11th May, 2022 at Darjeeling

An educational tour was conducted in May, 2022 from the Department of Geography with the 6th semester students at Darjeeling. Total 18 students took part in the excursion. The tour was planned to give students a practical knowledge about different geographic features. They learned about physiographic and topographic expressions, fluvial processes on mountainous regions, mutual co-existence of people and nature in the hilly areas and livelihood pattern of people in the said region. The tour and the acquired knowledge will definitely help them to understand physical and human geographic relationship in a better way.

3.08th June 2022 at Atiyabari Tea Garden Village:

For a better understanding of the behavioural response of human beings with respect to Man-Environment relationship, field studies are conducted. A socio-economic study has been undertaken on a selected segment of Atiyabari Tea Garden village, Kalchini block, Alipurduar District on 8th June, 2022. In this study, emphasis has been given to an integrated approach including demography and socio- economic conditions of the people residing in this area. In addition to this, attention was also laid upon the identification of various problems of the study area. Some suggestions were also been sought, considering the physical location and various activities of the Panchayat development.

Firstly, collection of primary data on various aspects of demography, society and its evolution, diversification of economy with the help of maps and cartographic representation has been done. In the synthesis part, based on socio- economic profile and considering the various developmental processes sponsored by the central govt., some suggestions have been given for further development of the particular area which may be fruitful for any kind of further research for development of this area.
